Mast Up Storage

We have had good success with mast up storage in the marina yard and we would like to continue to offer this option to our customers.

But the time has come to put down some guidelines regarding this type of storage. The insurance companies are cracking down on their regulations and we are trying to prevent any loss or damage.

The guidelines are as follows:

- 1) Before haul out, all boats with mast up must have sails off and the rigging ready to be tied off.
- 2) After on land, the rigging should be tied away from the mast to reduce any noise.
- 3) All dodgers and canvas must be down or off, while the boat is on land.

If we have to remove sails or tie up rigging that has not been secured properly, there will be an additional charge for our services.

Thank you,
LCM Staff
